FULL TIME SENIOR VETERINARIAN

Are you a unicorn?

Gently pat your forehead. Is there a large horn protruding from it?

Look in the mirror at the back of your head and neck. Do you have a rainbow-coloured mane?

Look at your feet and hands. Are they single digits encased in hoof?

Now, final one, just check your skin... any glitter?

I'm really sorry to shatter your dreams. Unicorns don't make that good a vet anyway.

What if you *feel* like a unicorn though? What if you could be a perfect fit? What if you could be part of a practice where you had autonomy in your role, contributed to the practice's direction and the opportunity to teach others whilst continually learning yourself? *That*, I can offer you.

To our clients and their pets we aim to help people enjoy having animals, whether that be having productive cows, high-performing horses or healthy cats and dogs. To our staff, we strive to provide an environment for personal and professional development. To create opportunity.

So where do you fit in?

I'm on the search for a veterinarian who is seeking opportunity to develop their leadership to complement their professional skillset. I want you to share the excitement of continued learning and watch as people all around you pursue their own purpose and mastery.

How do we do that?

Caseload, facilities and access to training. We have a busy caseload with a wonderful clientele who are willing to pay for value. By continually investing in new equipment, facilities and in our staff training, we can continue to advance the level of our service to keep our patients as best-cared for as possible.

What do I need?

Some experience. If you're a new or recent graduate and you've read this far, I still want to hear from you - check out [this ad](#). As for *you*, you'll need to want this. You'll need to get the same kicks we do.

How will I know?

The only way we can work this out is if you reply to this ad. I've done what I can do - I've put my hand up. Now you need to do the same.

Righto, the nuts and bolts:

- Mixed animal clinic (85/15 Small animal/Large animal)
- Role: Negotiable - can be purely small animal or mixed
- Location: Mackay - can be based elsewhere, FIFO roster option available
- Remuneration: Negotiable. Want a ball park? We're expecting to hire someone worth more than \$130,000 per year

The rest?

Up to you.

Give me a call on 0487 430 554 or email at agrant@stablerandhowlett.com.au

Thanks for reading; I look forward to talking to you.
